

The Sun and Moon Didn't Just Happen

1 The sun and moon didn't just happen,
The stars were constructed to glow!
My great, great, great, great, great, granddaddy
Was not a gorilla - NO! NO!

All things, (all things) all things (all things)
Have come into being through Him (through Him),
Not one thing (not one thing), not one thing (not one thing).
Not one thing exists without Him! (clap clap)

2 The kittens and puppies and hippos
Are not from primordial stew (Ewww),
No random, haphazard event could
Make something as precious as you.
